

Opportunity for an Oncologist Noosa Hospital, QLD

Noosa Hospital, on Queensland's Sunshine Coast has an ideal opportunity for a second Oncologist to join our existing Haematologist/Oncologist to support and expand our Oncology services to the local community.

The hospital's Haematology/Oncology Department is currently licensed for 6 oncology chairs and we offer active patient support programs under our "Club Chemo" banner. The Noosa Hospital Haematology/Oncology Department treats approximately 30 day patients per week. Moreover the Sunshine Coast has two radiation-oncology facilities, both within 30 minutes drive of Noosa Hospital. You would be enthusiastically welcomed by Haematologist/Oncologist Dr Sybil Kellner, our experienced and dedicated nursing team as well as the local community.

Noosa Hospital owned and operated by Ramsay Health Care has a 20 year contract with Queensland Health to treat public patients. As well as offering a wide range of services to public patients we also treat private patients giving you the ideal base from which to grow your practice.

ABOUT NOOSA HOSPITAL

- We are a 92 bed facility, offering a wide range of medical and surgical services; the hospital is highly regarded throughout the medical community.
- Noosa Hospital is a beautiful and unique facility set in a well kept "green" environment. The Sunshine Coast has some wonderful and accessible places to live and we have superb schools, beaches, restaurants, parklands as well as the Sunshine Coast airport in close proximity.
- Many of our Doctors choose to live just a short drive from the hospital at some of the Sunshine Coast's best locations, allowing them to maximise the work/life balance. As an additional benefit, Brisbane and the attractions of a large metropolis is less than 2 hours away by car
- The hospital would actively support and market your new practice to ensure a smooth introduction and transition onto the Coast
